Note from the CEO

Thank you for your interest in The Set Me Free Project's® READY to Stand Curriculum® for Adults of every facet of the community. This curriculum aims to empower our community to recognize the signs of human trafficking and to recognize that each of us and others have value, human dignity, and worth. Our curriculum is informative, interactive, and flexible –bringing empowerment instead of fear.

It is an honor to see lives changed. It is an honor to do what we do and make a difference.

Prevention education gives communities the tools to recognize human trafficking and the grooming process of people who want to do harm, Prevention education also helps us all to lower and eliminate human trafficking in our communities. But more important than that, powerful prevention education changes lives.

So, thank you for joining us in this important work! We are READY to stand together, and with your help, we can stop human trafficking before it starts.

~ Stephanie Olson, CEO and Founder

Our History

In the summer of 2014, the founding members of The Set Me Free Project® began researching and training on human trafficking. They quickly realized that they had not fully understood the risk to their children, and most parents did not understand either. Furthermore, no school district in their community provided any awareness or prevention education on human trafficking to any youth - the targets.

For this reason, The Set Me Project® is now serving communities nationwide by bringing prevention education to students, parents, educators, businesses, and industries.

Our Mission

The Set Me Free Project's® mission is to stop human trafficking before it starts by providing prevention education to all ages.

About the Curriculum

The Set Me Free Project's® READY to Stand Curriculum® is designed to engage and empower participants. By offering fun and flexible programming for all groups, we believe everyone can take a stand against human trafficking.

We believe that our READY to Stand Curriculum® has a place in every school, organization, business, and community because prevention education is something that not only benefits our community but can have an enduring impact on the world.

Our Core Values

- Personal Value: We are committed to the belief that every person has value and deserves equitable treatment.
- Compassionate Prevention: We are committed to keeping youth safe through compassionate and empathetic prevention.
- Integrity: We are committed to personal and professional integrity, working individually and collaboratively.
- Striving for excellence: We are committed to boldly, yet humbly, striving for excellence.
- Creative Solutions: We are committed to finding creative solutions through ongoing education.
- Fun: We are committed to fun in everything we do.

Specific Audiences

Who do we speak to? Everyone!

Each industry is different, but many see human trafficking in some way, shape, or form. Understanding what it is and how to prevent it is critical.

Prevention happens when our entire community is educated. We teach what human trafficking is, what it is not, how to spot it, and what to do to report it. With industry-specific presentations and curriculum, we can help your organization or company know what human trafficking may look like in your industry.
